HEALTH CARE AUTHORITY

Provider Directory Search

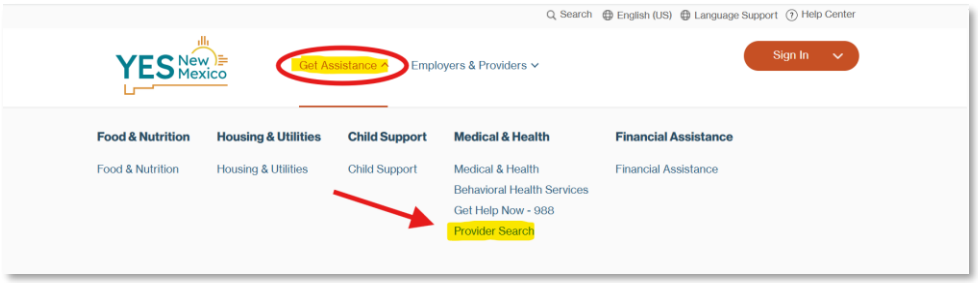

Quick Reference Guide

Rev.1, 7/14/2026

1 Overview

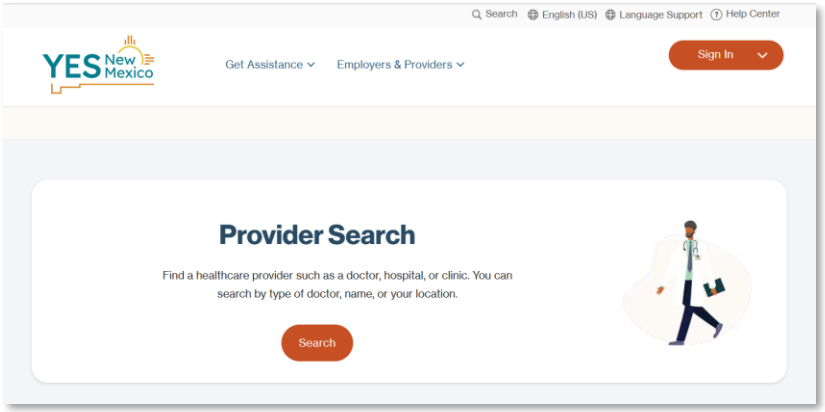

This Quick Reference Guide explains how to search the New Mexico Health Care Authority Provider Directory (NM HCA PD) and provides helpful tips for getting the most accurate results.

The NM HCA PD is available on the YES.NM.GOV website. From the home page, select **Get Assistance**, and then **Provider Search**.

You can also go directly to the Provider Search page using this link: Provider Search page

Or, scroll to the bottom of the YES.NM.GOV home page and select **Provider Search**.

2 Creating a Search

Step	Screenshot
1. On the Provider Search page, click **Use Your Current Location** or enter an address. Then, choose a **Distance** to find providers within that number of miles. **NOTES**: *Some web browsers may automatically fill in the **Provider First** and **Last Name** fields. Be sure to delete this information before you click **Search**.* *If searching by **Name**, make sure the name is spelled correctly. The search only finds names with the exact spelling.* *If you do not get any results, try leaving the **Provider Type** field blank. There may not be a provider of that type within the distance you selected. Removing the Provider Type lets you see all providers in that area.* *You can also search by the provider's **NPI**. If you don't know the NPI, use the NPPES NPI Registry to find it before you search.* *Find a provider's taxonomy information in the **Provider Enrollment Matrix**, posted at the bottom of the Providers Overview web page.*
