Depending on incarceration length and release timing, Medicaid may cover the entire incarceration.

SERVICES FOR ELIGIBLE JUVENILES

ALIGNMENT WITH THE CAA REQUIREMENTS

The CAA has requirements for eligible juveniles in public institutions up to age 21, and former foster care youth up to age 26

CAA Required Services

- Targeted Case Management 30 days pre-release through 30 days post-release.
- EPSDT screening and diagnostics 30 days pre-release or as soon as feasible immediately post-release (i.e., within one week).

CAA Intersection

- CMS allows states to cover the CAA required services under the 1115 waiver.
- Must cover at least the same services for the same beneficiaries as required under CAA.
- Significant alignment surrounding required procedures and policies to integrate carceral services within broader Medicaid systems and processes.

SERVICES FOR ELIGIBLE JUVENILES

If your facility has adjudicated eligible juveniles

- **The CAA requirements apply regardless of a facility's participation in JUST Health Plus; however, participating in JUST Health Plus will help a correctional facility satisfy the requirements.**
- **Eligible juveniles include those who are (1) Medicaid eligible, (2) adjudicated, and (3) under 21 or under 26 in the former foster care Medicaid eligibility category.**
  - Only applicable for youth who are within 30 days of release to the community.
- **Applicable facilities if they have eligible juveniles as described above:**
  - CYFD
  - NMCD
  - Counties
  - Tribal Facilities
- **Flexibilities, if needed:**
  - Provide the services but not bill Medicaid.
  - Services that cannot be provided pre-release may be provided post-release; HCA will work with facilities to determine feasibility.
