New Mexico Medicaid

Prescription Drug Information Reporting

Background

The Health Care Authority (HCA) Medical Assistance Division (MAD) requires all manufacturers to submit data to the state of New Mexico as mandated by the Reporting Prescription Drug Information Act, HB666 (2003). This legislation requires a company or individual who manufactures a prescription drug, including a generic prescription drug, that is sold in New Mexico shall file with Health Care Authority (previously Human Services Department):

- The average manufacturer price for the drug,
- The price that each wholesaler or pharmacy benefit manager doing business in this state pays the manufacturer to purchase the drug,
- The price paid to the manufacturer by any entity in an arrangement or contract that sells or provides prescription drugs in New Mexico without the services of a wholesaler,
- The Act goes on to further define the requirements. (Statute §27-2E-1), and
- The information required under Subsection A of this section shall be filed annually or more frequently, as determined by the Health Care Authority. The information is confidential and shall not be disclosed, pursuant to Section 3 [27-2E-3 NMSA 1978] of this act and shall not be subject to public inspection pursuant to the provisions of Section 14-2-1 NMSA 1978.

Manufacturers must submit the report annually for the reporting period of July 1 through September 30. The report is due no later than January 15 of the following reporting period.

The report can be in the attached file layout and may be in Excel or Comma Delimited Text format. Submit reports via the madpdi@hca.nm.gov email (further instructions below).

Prescription Drug Reporting Instructions

Reporting Period - Manufacturers must submit the required data annually based on the prices, in effect July 1 through September 30 of the year (the "Reporting Period"). The data is to be reported annually, but only for this quarter. (Statute§ 27-2E-l B)

Reporting Format - The reporting format is attached. For each data element requested, if the manufacturer has multiple prices during the period, the manufacturer must report the lowest price during that period. If the manufacturer does not have a price that meets the relevant criterion for the requested data element, the manufacturer or wholesaler should report the default value of zero (0) in the data field.

AMP: Manufacturers should report the AMP specifically for New Mexico if that data is accessible. Otherwise, they may report the federal AMP as reported to CMS for the Reporting Period. If customary prompt pay discounts are not included in the federal AMP reported to CMS, the manufacturer shall separately report the customary prompt payment percentage (if any) included in the manufacturer's contracts with wholesalers that buy directly from the manufacturer. (Statute§ 27- 2E-l Al, D**)**

Lowest Prices

- **Wholesaler Acquisition Cost:** Manufacturers must report the lowest price paid to the manufacturer during the Reporting Period by a wholesaler physically located in New Mexico. If there are no sales to wholesalers physically located in New Mexico during the reporting period, the manufacturer must report the default value in the data field. (Statute § 27-2E-l A2)
- **Price to PBMs:** Manufacturers must report the lowest price paid to the manufacturer during the Reporting Period by a PBM that physically takes possession of the product in New Mexico. If there are no such sales of product in New Mexico during the reporting period, the manufacturer must report the default value in the data field. (Statute§ 27-2E-l A2)
- **Manufacturers Direct Cost:** Manufacturers should report the lowest price paid to the manufacturer during the Reporting Period by an entity physically located in New Mexico that purchases directly from the manufacturer without the use of a wholesaler. If there are no such sales to an entity physically located in New Mexico during the reporting period, the manufacturer must report the default value in the data field. (Statute § 27-2E-l A3).
